

WANTED

EDITOR/ASSISTANT PUBLISHER

A leading publisher of instructional materials for the aviation maintenance industry seeks an experienced editor to oversee its book publishing division.

Responsibilities include: 1) working with independent authors in developing and editing aviation technical training materials, 2) revising existing textbooks to meet current training needs and standards, 3) managing production staff, including illustrators, graphic and web designers, 4) authoring aviation technical training materials (primarily maintenance related).

Qualified candidates should have 1) a minimum of 3 years aircraft maintenance experience, 2) an A&P certificate (an IA certificate is preferred), 3) classroom teaching experience, preferably with curriculum development experience and in a Part 147 school, 4) strong technical writing skills. Familiarity with publishing and print production is beneficial.

A competitive salary and comprehensive benefits package, including medical and retirement, is available along with a relocation allowance.
